Ahrens-Fox has acquired cult-like status and is the icon most used when referring to fire apparatus of the 20th Century, with its gleaming spherical air chamber that adorns the front. This book covers all the classic Ahrens-Fox models selected by renowned author/historian Walter M P McCall. In addition to the fantastic large b/w archival images, a beautiful colour section shows the colours and beauty of the chrome ball that Ahrens-Fox is known for.

Created by many who were there, this book chronicles the "Rebel Decade" perhaps water sports most exciting and dangerous era. Here are the racing legends who reigned in the heyday of hot boat builders, drivers and crews. These were the mavericks who pushed the limits of speed on water, determined to be the first to smoke-the-water with the sleekest, most dynamic, thunderous, fire breathing rooster tail spittin' gas and blown nitro wood flat bottoms and hydros in drag boat racing.

"Since 1910 **Federal Trucks** have been known in Every Country-Sold on Every Continent". One of the great "independents" from Detroit, Federal produced a "high quality truck at a good price". From 1910-1959, Federal assembled over 160,000 trucks for all types of uses including delivery vans, buses, garbage trucks, and over the road heavy haulers. In WWII Federal produced 11,338 military vehicles, earning the coveted Army-Navy "E Pennant" four times for production excellence. After the war Federal experienced the same difficulties experienced by other independents. Despite the 1950 introduction of the Style Liner and the restyled Golden Eagle Series, introduced in 1957, production of Federal trucks ended in 1959. This photo archive chronicles this admired truck through large-format archival photographs with highly detailed captions. See these legendary trucks once again.

With a rich heritage stretching back 128 years to 1880 the **Bacrus** name, in all of its manifestations, has become synonymous with moving earth. From the smallest loader backhoe to some of the largest machines ever to move on land, no other company has produced such a wide variety of types and size of excavating equipment. Nothing could be more apt to describe this manufacturing powerhouse than its 1960s slogan "The Longest Line on Earth".
