

ELLERY PUBLICATIONS THE LATEST RELEASE

The latest edition to be added to the extensive range of
Ellery Vehicle Repair Manuals

MITSUBISHI—PAJERO 2000-2010 AUTOMOBILE REPAIR MANUAL COVERING: PETROL V6-3L, 3.5L & 3.8L

This new publication of 530 x pages has easy to follow detailed and basic instructions in all chapters covering the Pajero models in their various forms.

This new manual is written to assist both the owner/mechanic, providing the necessary and exact specifications whether the oil is requiring a change, battery to be replaced or a major repair required.

This new Pajero manual assists and guides the owner/mechanic with the jobs from replacing the exhaust manifold to rebuilding the engine as well as assisting in identifying the different blocks, cranks and bearing codes.

Ellery Repair manuals are 100% Australian owned, written by experienced automotive technical writers, and considered world class in both quality & presentation of serious information.

All over 100 x pages are devoted to engine tune up and maintenance covering both petrol and diesel in their various types. Very precise and easy to read photographs and line illustrations are provided of the various engine components. Problem diagnosis and specifications are provided for the various engine types. Both the V6 petrol and 2.8L diesel engines are well covered throughout the manual, particularly in the area of ignition, fuel and emission systems.

Brakes, suspension, steering, rear axle etc all have independent chapters full of easy to follow photographs, line drawings and instructions.

There are a multitude of specific areas covered under the general headings of Body-Heating-Steering-Exhaust etc. Ten pages, alone are devoted to electrical diagnosis.
