The Zoom Digital Microscope is a powerful digital microscope that displays the magnified image right on to your computer screen. The Integrated Digital Camera enables you to capture still images and VIDEO at the click of a button and view them on your PC monitor. This product is not just for the discerning stamp collector but anyone wanting to examine all sorts of things on their home or business computer. Possibilities could include: Stamps, Coins, Linen and other materials. The microscope comes with 26x -130x digital zoom and 5x optical zoom which is completely controllable by twisting the top of the microscope allowing the users to zoom in an out with ease bringing into view details of ordinary objects you never knew existed. To ensure an excellent view the Zoom Digital Microscope contains a built in illuminator for clear and bright magnified images. Compatible with Windows 98SE, ME, 2000, XP, Vista and MAC OSX 10.4 or above, battery-free and connecting to your PC via USB 2.0, this microscope is extremely simple to use while still giving you excellent results.

Key Features:

- *Connect to PC via USB 2.0
- *View live image on PC screen
- *Built-in internal illumination
- * Press the SNAP button to capture an instant image
- *5x Optical zoom lenses
- *Large, easy zoom barrel
- *Enlarge specimen from 26 to 130 times at VGA resolution on 14" monitor or larger
