Tattoo From Idea to Ink

This is an indispensable resource for tattoo artists and enthusiasts alike. The book traces the origin of a tattoo from the initial concept through the process of design, the creation of the art, and final implementation in the hands of a talented artist. With an abundance of colourful images and insightful text, this book provides a first-hand look at the stages a client experiences in getting a tattoo. From Idea to Ink, offers design ideas, artwork and suggestions for anyone looking for that perfect piece of art. The book features an analysis of different styles of Tattoo Art, illustrated with work by industry legends.

How To Build a Bonneville Salt Flats Motorcycle

How to build a Bonneville Salt Flats Motorcycle documents the construction of the Worlds Fastest Panhead, conceived and assembled by Keith R Ball, former editor of Easyriders magazine and current owner of Bikernet.com, the most popular biker stop on the internet. Keith walks the reader through all the steps and all the hassles of creating a true Bonneville Salt Flats motorcycle. From choosing a class to picking a frame, from finding an engine builder to minimizing the aerodynamic drag at 200 miles per hour.

How To Advance Custom Motorcycle Wiring

The one job that even the best mechanics avoid is wiring. Those worries are now over with the introduction of Motorcycle Wiring from Wolfgang Publications. This book uses chapters one and two to cover the basics of DC electricity; as well as batteries, starters and alternators. The next chapter provides detailed schematics and repair information on the factory wiring harness used before and after 1994. Inside you will find over 350 colour photos and diagrams spread across 144 pages. Everything from the basic circuits to complex wiring schematics, and complete start-to-finish custom wiring installation.
